

## RevIntake Premium populates patient reported data within RevolutionEHR.

### Display Family Medical History on the PFSH Screen

Enable under **Admin > General > Practice Preferences > Additional Preferences > Patients > PFSH**

RevIntake Premium will populate the following screens:

#### ► Demographics

Will update automatically when the data is available in Revolution.

Setup the ability to notify users if a patient updates demographic information. In **Admin > General > Location > open a location > PHR settings > Existing Patient Update**. Select users to be notify.

#### ► Insurance, Medications, and Allergies

Will update through reconciliation when new data is present.

RevIntake Patient Reported on 07/09/2021

RevIntake patient reported data will display in rows highlighted in yellow

Company Information	Policy Holder	Policy Holder DOB	Relationship	Policy Number	Insurance Card	Status	
Blue Cross Blue Shield	Test Holder 3	10/04/1985	Self	777	<a href="#">View file</a>	New	✓ ✗
Unity Health Insurance	Test Holder 4	11/04/1985	Spouse	654123		New	✓ ✗
Medicare	Test Holder 5	11/04/1990	Other	987123		Discontinued	✓ ✗

Accept or decline patient reported data that is new or no longer active

Medications and allergy tables include the ability to bulk accept or decline

RevIntake Patient Reported on 04/26/2021

#### ► ROS, PFSH, RFV, and HPI

Will automatically display the patients' responses in the fields on the screen. For reference, an information banner will display all of the data changes.

RFV and HPI will automatically display the patients' response when the encounter is associated to a RevIntake Interview.

ROS
