Schedule Week View

RevolutionEHR introduces new views to improve your scheduling experience

For the best Week/Work Week view experience we highly recommend that users' set their schedule layout to vertical.

	+	• 2
ek	Se	ettings

New 'Schedule view' setting allows users' to set their preferred view. This view will display by default when the user logs in.

The following **schedule views will display all events** for the employees/roles selected in the schedule filter:

- **Day** displays one day of the schedule.
- Week displays the schedule Sunday Saturday.
- Work Week displays only days that have an event scheduled (an event includes Appointments, Busy Times, Employee Hours, Appointment Slots, and Office Closed). If an employee/role doesn't have an event scheduled for a day of the week, that day will not display.

NOTE: If an event is added to a day that is not displaying, the day will display after 'Create' is clicked and the schedule will refresh.
